Building Your Success!

References

"I've monitored and observed many build-outs and work performed. The quality of jobsites vary usually with the speed of work performed, however, in my second visit to the jobsite...the progress that occurred from the 1st inspection on October 1, 2008 to the 2nd inspection on October 29, 2008 was nothing short of the most impressive building I have ever encountered....greatly surpassing all the quality and precision that the highest industry standards require.

- Richard W. "Rick" Wheeler, Construction Consultant, Sage Capital Services, LLC (303)389-4932

Project:

Kiddie Academy

Location:

Brighton

Owner:

Cindy Vigesaa

Specifications

- 9,504 sq. foot wood-frame child care facility built out of ground
- BleekerVigesaa completed this project in less than 14 weeks
- Work included 9 classrooms, each designed for a specific age group, 2 offices, 1 commercial kitchen, a staff lounge, 2 staff lavatories, and 12 children's' toilets, separated for use by age. Also, 3 fenced play yards; 1 for ages 2 and under, 1 for ages 3 to 5, and 1 for ages 5 and above.

To Whom It May Concern:

I wish to thank the BleekerVigesaa team for an excellent experience. From the onset, BleekerVigesaa General Contractors, Inc. executed this 9,504 square foot first-of-its-kind learning center with a smooth and problem free process. This building went up in an existing retail center where other businesses were open and conducting business. BleekerVigesaa made sure that the construction process did not interfere with any of the existing businesses and ensured safety at all times.

Their professional organization and leadership allowed the ground-built learning center to be completed in an amazing 3½ months allowing the academy to open in time for a key January enrollment period in the child care industry.

They did an excellent job of executing the prototype plan set forth by Kiddie Academy® Domestic Franchising, LLC and flawlessly maintained the brand image. I highly recommend BleekerVigesaa General Contractors, Inc. as an excellent general contractor for child care construction.

Please contact me personally with any questions.
